It extends approximately 40 km west from the coastal city of Dunedin, east to Mt. Horrible, and north towards the Stewart Mountains. The Cape Kea Range is named after Cape Kea, which in turn is named after King Pukea of the Ngāi Tahu tribe. The ranges include many of the highest peaks in New Zealand. The maximum elevation is 2,904 m. The ranges include: (with a summit of 2,828 m) (2,713 m) (2,547 m) (2,402 m) (2,231 m) (2,165 m) (2,159 m) (2,155 m) (2,148 m) (2,147 m) (2,149 m) (2,149 m) (2,144 m) (2,144 m) (2,142 m) (2,142 m) (2,141 m) (

What's New In?

Take a closer look: This is the Windows window for Markup Assist. If you don’t see the new Markup Assist window, run the Autodesk® AutoCAD® 2018 for Windows program from the main menu and open the Markup Assist window. The Markup Assist window opens with a blank drawing. You can start importing images or inserting text and drawing objects. You can also open a template in Markup Assist, which you can change or edit to produce new drawings with your imported images and text. You can also directly import text from Microsoft Word, Excel, or Libre Office and add it to the drawing. Note that the Markup Assist window is not active by default. To make the Markup Assist window active, in the Windows taskbar, right-click on the AutoCAD icon and choose Markup Assist. You can also activate the Markup Assist window from the Autodesk® AutoCAD® 2018 main menu or the ribbon. A drawing with text and images imported from the internet can be further edited to create a better design or incorporate changes from other designs. (video: 1:15 min.) Allowing edits to take place without the need for saving drawings: You can edit your drawings without the need to save them to change something in your design. In the Markup Assist window, there is a button to Activate Edit. Pressing this button changes the drawing to editing mode. Pressing Esc turns off edit mode. You can also use the on-screen keyboard to edit drawings while in edit mode. When in edit mode, the on-screen keyboard comes in the display window. Pressing Tab displays the keyboard, while pressing Esc turns off the keyboard. Replace printed pages and drawings with new ones: Instead of having to keep printing out your drawings, you can print an entire sheet of drawings or pages. You can then replace the pages and the drawings with new pages and drawings. (video: 0:39 min.) Open files from the computer without having to save: When you import, you can automatically open files on your computer. So you no longer have to save your drawings to open them again. (video: 0:29 min.) Get the project back on track: You can quickly review and revert your drawings to a previous state. When you undo an action or turn off edit mode
