The annual report also showed that the national incidence of HBV-related diseases declined by 3.9 per cent year on year, while the ratio of anti-HBV vaccine to the population in southern China decreased by two percentage points to 24.5 per cent, driven by an increase in the coverage of hepatitis B vaccine among newborns. The total number of reported cases of HBV-related diseases in 2018 was 2,892,000, down by 38,000 from 3,210,000 in 2017. The average mortality rate was 0.17 per 100,000 people, down by 0.02 per cent from 0.17 per 100,000 in 2017. According to the report, there are eight provinces and two municipalities that account for 70 per cent of all reported cases of hepatitis B in China, which are Guangdong, Jiangxi, Zhejiang, Hebei, Shanxi, Yunnan, Guizhou, Chongqing and Henan. The incidence of HBV-

Join our group : Like this: Like Loading...Wednesday, May 13, 2014 When David Cameron told MPs in his acceptance speech for the Conservative leadership in 2005 that a future election would be a "hail Mary" to win back Tory voters lost to Labour, he was talking about the Conservative brand. Now he seems to have lost that support among Tory voters. Nigel Farage, who would probably make a good PM, said, " If you want a Tory party of David Cameron's ilk, find a better Tory candidate." Is it likely that the Tories would accept him as an interim leader? And even if they did, would it be acceptable to their voters? "Likelihood" is not part of the Conservative campaign. The campaign is a repeat of old Tory stereotypes and phrases aimed at limiting what Labour wants to do, a competition in telling lies. There was once an excellent method for describing the base of any political party. The Oxford English Dictionary tells us that "Tory" originates in Toryism, which is a form of Protestantism. Toryism is now the most common form of political conservatism. A Daytrip to the Shakes Palace Jul 05, 2017 11
