Los Angeles, CA Platform Computing Corporation announced at the Design Automation Conference in Los Angeles a new initiative to

---

drive further adoption of Linux farms. In support of this announcement, Platform has announced the immediate availability and support of its LSF 4.0 technology for Red Hat Linux 6.2, the latest version of the popular operating system. The announcement marks an extension of LSF Suites wide platform and operating system support, which includes all of the major UNIX versions, Linux, Windows NT and other proprietary environments. As the worlds leading software vendor that harnesses the power of compute farms, Platform is excited to embrace and drive the wide adoption of commodity hardware and software for the EDA community. 5ec8ef588b
